NEW BANKING LOCATION IN COLORADO SPRINGS

COLORADO SPRINGS, CO - American National Bank is pleased to announce that it has purchased land at 4194 Royal Pine Drive to build a new banking facility. Located near Powers and Union, the two-story 12,340 square foot banking center will become American National Bank's sixth location in the Colorado Springs area. The Bank will be occupying the first floor, 5,990 square feet and will offer the second floor out to commercial tenants. The full-service Banking Center will offer 3 drive-up Lanes, a drive-up ATM, safe deposit boxes, a community room, ample parking access and much more.

American National Bank is working with NP Daley Architects and Art Klein Construction on this project. The exterior of the facility will be built of stucco and stacked stone.

American National Bank's future expansion goals will continue to be a priority in finding suitable locations. Despite heavy banking competition in the Colorado Springs area, Bill Berenz Regional President, is confident of American National Bank's success, saying, "We have the right management team in each of our markets. Our employees have been in the communities for many years and have earned the trust of our customers. It is the combination of high quality products and high quality people that provide the foundation for success."

"As our community continues to grow, we grow with it. This newest location is part of our plan to serve the needs of growing markets and we're very excited to be moving forward investing in the communities we serve," said Berenz.

American National Bank provides products and services tailored to meet the financial needs of its customers. In addition to Deposit and Savings Accounts the bank offers an in-depth Cash Management suite of products, Wealth Management Services, Internet Banking, e-Services, and Consumer, Construction, Real Estate, Commercial, SBA and Mortgage Lending.
